Funny you mentioned that. I just sent this to Dave and was going to speak with him about it after (late) lunch today. I agree. Dave was helpful on at least one other tribal grant review.

Hi Scott,

I am only now engaging on this proposal review, and was wondering if you were going to check in with Dave Ward on this one - it seems there is a lot of potential overlap, or at least mutually interesting information, that the PSP outreach and education program has going on. If you are going to involve Dave in this review at all, then I won't involve Sally Hanft (she is the EPA project officer on Dave's grant). Please let me know what you think is the best way to proceed. I do think it would be super helpful to get Dave's perspective on this proposal.

Hello Lisa and Scott,

Please find enclosed Swinomish's second FY12 proposal for your review.

We only have two proposals left to send for FY12 (Nisqually's second Derelict Gear proposal and Skokomish's second Fish Consumption Rate Survey proposal) and that will close out the FY12 external review cycle. I thank you both for your continued time and attention to our tribal projects; your reviews are very much appreciated.

Many thanks,

Tiffany Waters
